# Staff Report

June 9, 2021

DATE: 6/2/2021  
 TO: BOD  
 FROM: Dan Efseaff, District Manager  
 SUBJECT: BOD Candidates

## Report in Brief

California Code (Gov Code, Title 1 Division 4, Chapter 4, Article 2, 1780) addresses vacancies and remaining board members may make an appointment to fill the remainder of the term. With the vacancy created with the resignation of Director Julie Van Roekel, the Paradise Recreation and Park District (District) solicited the community for candidates to serve the remainder of the term until the next election cycle in December 2022 at which time the successful candidate will be subject to a ballot election for a two year term ending December 2024.

The District posted and distributed notices widely and requested basic information in an application. Upon submittal, Candidates were invited to submit supplemental information (resume, letter of interest, and questionnaire). These materials will help Directors select good candidates to serve on the Board. The following candidates provided all requested information (listed in order of submittal):

### Board Candidates

- |                    |          |  |
|--------------------|----------|--|
| • Brian Wilson     | Paradise | Materials Received   |
| • Brandon Mortimer | Paradise | Materials Received   |
| • Dennis Ivey      | Magalia  | Materials Received   |
| • Sky Borie        | Magalia  | Materials Received   |
| • Terry Rodgers    | Paradise | Materials Received [Submitted after 5/28/21 12:00 p.m. deadline] |

Additional citizens submitted applications but did not provide the supplemental material by the 5/28/21 deadline. Staff requested confirmation of interest or withdrawal by the Board Packet Deadline (noon on 6/2/2021). These include (listed in order of application):

- |                   |          |          |
|-------------------|----------|----------|
| • Heidi Lange     | Paradise | Withdrew |
| • Gus Boston      | Paradise |          |
| • Aaron Singer    | Paradise |          |
| • Carrie Stratton | Paradise |          |
| • Alan Hinman     | Paradise |          |

At the selection meeting, Candidates will be provided time (5 minutes) to present a statement of their qualifications and interest in serving on the Board. Board members will then ask questions and start the selection process. The Chair will entertain a motion to nominate a candidate for director, and with a second, the BOD will vote. If the motion passes, then the process will cease. If not, the process will continue, until a nomination is approved. If no candidate is selected, the vacancy will remain open.

The appointed director shall take the oath of office and be seated at the July 14, 2021, meeting (PRC, Section 9302).

Staff provide information on the candidates to Board members and a scoring sheet.

**Recommendation:** Review candidates and appoint a Director to serve the term ending December 2022.

### Attachments:

- A. Application and Supplemental material of candidates (Brian Wilson, Brandon Mortimer, Dennis Ivey, Sky Borie, and Terry Rodgers).
- B. Applications for Heidi Lange, Gus Boston, Aaron Singer, Carrie Stratton, Alan Hinman

Board Member Applicant:

Thank you for your interest in serving on the Paradise Recreation and Park District Board of Directors. We have received your on-line application and would like you to submit the following supplemental information:

- Updated resume
- A letter of interest
- Response to the following questions:
  1. What motivates you to want to serve on our Board? What interests you the most about our District and do you have any personal connection to the organization?
  2. What qualities make for a great Board member? What do you see as the relationship between you and Board members, and staff?
  3. What role would you play on the Board? Please note skills, connections, resources, expertise, and prior Board leadership experiences that you offer and are willing to use on behalf of the organization. What areas will you need to learn the most?
  4. What is your understanding of upcoming challenges and opportunities facing the District?
  5. What factors might limit your ability to serve?

Please keep responses to less than 750 words or 2 pages total [12 pt. Arial or Times font] and submit your answers to [ccampbell@paradisepspd.com](mailto:ccampbell@paradisepspd.com) no later than 12:00 p.m., May 28, 2021.

## **PARADISE RECREATION AND PARK DISTRICT**

---

April 23, 2021

PRPD Board of Directors  
6626 Skyway  
Paradise, CA 95969

### **DEAR MEMBERS OF THE BOARD OF DIRECTORS**

I am writing to express my interest in serving as a member of the Board of Directors of the Paradise Recreation and Park District.

As an active member in this community for the past 20 years, I have worked hard to provide enjoyable and memorable recreational opportunities and experiences in our communities.

I have had the great privilege to be a part of many of the great youth organizations on the Ridge: coaching the Paradise Piranhas, PHS, and PAA Swim Teams, officiating PYSL soccer matches, providing safe after-school activities with the Boys & Girls Club, facilitating therapeutic outdoor experiences for the young people of Youth for Change, and even shredding the slopes teaching snowboarding to clients of PRPD. Through these experiences, I have continued to look for opportunities to connect individuals with the vast recreational opportunities provided us.

Working in the public sector of recreation for the past 9 years has given me a better understanding of the responsibilities of the local Recreation Districts, and the challenges that exist in providing quality recreation programs, parks, and facilities, in a fiscally responsible manner.

I am confident that I have the skills and experience to work as part of a dedicated team, to help guide the District through this period of rebuilding, and to continue to "Create Community and Quality of Life Through People, Parks and Programs."

Sincerely,

Brian Wilson

---

# BRIAN WILSON

## PROFESSIONAL SUMMARY

Accomplished supervisor with 10+ years effective management in the public sector with demonstrated history of success in recreation programming and administration.

## EXPERIENCE

**October 2018 - Present**

Recreation Supervisor – Feather River Recreation and Park District

**December 2016 - September 2018**

General Manager – Durham Recreation and Park District

**September 2013 - December 2016**

Recreation Supervisor – Durham Recreation and Park District

## PRIMARY FUNCTIONS

Develop and implement recreation programs for all residents of the District in a fiscally sustainable manner.

Prepare, administer, and oversee department budgets.

Provide oversight in the recruitment, training, supervision, and evaluation of program staff and volunteers.

Cultivate positive and effective relationships with District staff, Board Members, local government agencies, volunteer groups, service clubs and community organizations.

## ACHIEVEMENTS

Demonstrated success in strategic planning, and project management with the completion of the 7400 sq. ft. Jim Brinson Activity Center for the Durham Recreation & Park District in 2017

Co-authored the article: "Incorporating Children with Autism Spectrum Disorders in A Community Aquatics Program: A Creative Approach." *California Parks & Recreation*, Summer 2017

Recognized by State Recreation Association Outstanding/Innovative Programming in 2017

## EDUCATION

CSU, CHICO 2010

- BA KINESIOLOGY  
MOVEMENT STUDIES:  
COACHING AND  
ADMINISTRATION
- MINOR KINESIOLOGY  
PHYS ED/TEACHER ED
- CERTIFICATION UNITS  
OUTDOOR EDUCATION

## KEY SKILLS

- RECREATION PLANNING
- PROGRAM DEVELOPMENT
- STRATEGIC PLANNING
- PROJECT MANAGEMENT
- AQUATICS
- COACHING
- YOUTH/ADULT SPORTS

## INTERESTS

- BASS FISHING
- FOOD/DRINK EVENTS
- WHITE-WATER RAFTING
- BACK YARD "SPORTS"

# BRIAN WILSON

---

## RESPONSE TO SUPPLEMENTAL QUESTIONS

- 1. What motivates you to want to serve on our board? What interests you the most about our district and do you have any personal connection to the organization?**

My primary motivation for serving on the board is the desire to give back to, and serve, the community that I live in. As we work to recover and rebuild from the 2018 Camp Fire, I feel strongly that we must all do our part to contribute to these efforts. I am most interested in the District moving forward to provide increased quality recreational opportunities/services to our growing community in a fiscally sustainable manner. My personal connection to the District comes from the past 20 years working to provide enjoyable and memorable recreational opportunities and experiences in our communities.

- 2. What qualities make for a great board member? What do you see as the relationship between you and board members, and staff?**

- A quality board member is one that knows his/her role, understanding that the role is one of fulfilling the legal responsibility of the District, and to offer planning guidance, and strategic support.
- A quality board member should be passionate about the cause and have vision to achieve desired outcomes.
- A quality board member will demonstrate accountability, holding others accountable, while at the same time accepting accountability for him/herself.
- A quality board member will plan for and bring about desired change.

As a board member, my relationship with the board will be one team work to meet the objectives of the District. I am prepared to share my opinions, and appropriately challenge the opinions of others when needed, but will publicly offer my full support of, and for, Board decisions that have been made.

- 3. What role would you play on the board? Please note skills, connections, resources, expertise, and prior board leadership experiences that you offer and are willing to use on behalf of the organization. What areas will you need to learn the most?**

For the past twenty years, I have gained valuable experience in recreation programming, and administration, while working for and with the Special Districts and Recreation providers in our communities. I currently work for the Feather River Recreation and Park District as the Recreation Supervisor. I worked for the Durham Recreation and Park District, serving as the Recreation Supervisor and Pool Manager, the Assistant District Manager and most recently as the District Manager. Prior to working in Durham, I served the community of Paradise for more than 10 years while working with Youth for Change, the Paradise Piranhas Swim Team, the Paradise High School Swim Team, Paradise Youth Soccer League, as well as serving as the Pool Manager, Lifeguard Training Instructor, and Swim Instructor for the Paradise Recreation and Park District.

During this time, I worked to build and sustain positive working relationships with agency Boards of Directors, local government, service organizations, recreation providers, and school administrators, to promote and provide quality Recreation programs and Parks services for our communities. I worked to provide growth and development in these communities, successfully implementing new programs and expanding existing programs and services. I am committed to providing the best recreational programming and management possible for the community and am confident that this commitment will carry over to providing excellent direction and support for staff, clients, and community members of the Paradise Recreation and Park District.

**4. What is your understanding of upcoming challenges and opportunities facing the district?**

**Upcoming Challenges**

- Lack of unified community vision
- Sustainable parks & wildland management
  - Wildfire mitigation strategies
  - Surface water / ground water management
- Budgets/Spending priorities
- Recruitment/retention of staff

**Upcoming Opportunities**

- Everything is NEW and there is an excitement for what can be done
  - NEW Collaborations and NEW relationships
  - NEW Ideas
- Opportunity for land acquisition and development
- Expansion of wild-land/open-space recreational and leisure opportunities

**5. What factors might limit your ability to serve?**

I do not believe there are any current or foreseeable factors that would limit my ability to serve the District.

**Colleen Campbell**

I am writing to express my interest in becoming a member of the PRPD board of directors. My interest in this position is a direct result of my experience on 11/8/2018 and wanting to ensure a fire of that size and intensity is unable to affect our town ever again. I used the loss of my employment with Feather River hospital as a reason to return to school full time in pursuit of my degree in Civil Engineering. I hope is that I can apply my knowledge to help transform Paradise from a cautionary tale into a model community in terms of resource management and resilience.

I believe that it is possible to maintain the core elements of what Paradise was, a beautiful, wooded community, without compromising our safety. I see a need to incorporate fuel reduction strategies and green spaces such that we don't give another wildfire the opportunity to spread uncontrolled through the area. Fires will happen, there is no doubt, but how severe the damage can be managed.

Sincerely,

Brandon Mortimer

---

# Brandon Mortimer

## Objective

To obtain a position on the board of PRPD

## Experience

Adventist Health Feather River

4/2017 to 3/1/2019

- Staff therapist providing adult floor therapies, ICU care and ventilator management, and attending deliveries.
- Assisting in the COPD case management program.

UC Davis Medical Center, Pulmonary Services Laboratory

06/2015 to present

- Performing outpatient testing including PFT, Methacholine Challenge, Cardiopulmonary Exercise Testing, High Altitude Simulation Testing, and 6 minute walk tests all in accordance with American Thoracic Society guidelines and departmental policies and procedures.
- Assisting in interventional bronchoscopies including endobronchial biopsy with and without ultrasound, holmium and Nd:YAG laser therapies, bronchial thermoplasty, foreign body removal, Argon Plasma Coagulation and scope reprocessing.
- Assisting the ABG lab in the processing and reporting of specimens, performing quality control and maintenance of analyzers and verifying accuracy of results.

Fremont Rideout Health Group

05/2009 to 06/2015

- Staff Therapist providing floor care and oriented in all critical care areas. Perform bedside PFT's and Arterial Blood Gas sampling and analysis in preparation Coronary Artery Bypass Graft surgery.
- Day Shift Charge Therapist duties including staff assignments, departmental staffing and informal staff corrections. Assisting Clinical Coordinator and Department Supervisor as required.
- NRP instructor at the hospital education center.
- Pulmonary Function Testing Lab as a technician when needed.
- Assisting in bronchoscopy procedures.

## Education

Associates of Science in Respiratory Care, Butte Community College

08/2007 to 05/2009

Bachelors of Science in Civil Engineering, CSU chico

In Progress

Field of interest within engineering is wastewater treatment systems

Anticipated graduation fall 2022

## References

- Available upon request

- 1.) My motivation for seeking a position on the board of PRPD is to help promote a more sustainable and resilient community. I view our parks as having the potential to be the best defense for our town from future fires. If well thought out and maintained, they can help keep us safer as a community and provide areas for recreation as well spaces to relax and enjoy.
- 2.) I think the most important quality for anyone in a leadership role is to be willing to listen. Ultimately the decision comes down to those in charge, but changes are always more well received when the people affected feel like they had the opportunity to give input. I don't know enough about the board members or staff to really be able to give an honest evaluation of the relationship between them and myself.
- 3.) I would hope to be an asset to the board, providing insight based on the education I have received and being able to communicate effectively the decisions of the board to the broader community. I really enjoy conversing with people and discussing sometimes contentious issues. I like when people make me reevaluate my positions and hope to be able to articulate my position in such a way that they may reconsider theirs.
- 4.) My understanding of the upcoming challenges facing the district is limited, but I can assume financial hardships are likely. With the reduced tax base of the town, even as it rebuilds, there are less funds available. I have heard that the district is attempting to purchase properties around the town to be able to setup a greenbelt to function as a fire break, which if my assumption of reduced funding is correct will be challenging. However, I believe this presents an opportunity as well. With the current push for more environmentally sustainable development I wonder if there might not be either state or federal grants available to help.
- 5.) I don't believe there are any impediments to my ability to serve. While I am a full time student and have a family, I am not currently working and should have open availability.

Paradise Recreation and Park District  
6626 Skyway  
Paradise, California 95969

Subject: Letter of Interest and Supplemental Documents

Ms. Campbell:

Based on the instructions in your email of April 28, 2021, I am submitting the following documents related to my application for possible appointment to the Paradise Recreation and Park District Board of Directors:

Letter of Interest  
Resume  
Responses to Questions

I appreciate the opportunity to submit my name for consideration for possible appointment to the Board. During my time with the Town of Paradise, I have had the pleasure of working with District staff on a variety of projects and programs. I welcome the opportunity to continue that relationship as a member of the Board.

I trust my responses to your questions will provide the additional information you requested. However, I have not prepared a resume since 1991. The document that I've enclosed provides an education, military service, and a summary of my work history. I trust that will suffice.

Thank you for your time and assistance with the process. I look forward to hearing from you in the near future.

Sincerely,

Dennis Ivey

## RESUME

Dennis Ivey  
Magalia

**Education:** Alaska Methodist University (now Alaska Pacific University), Anchorage, Alaska  
Bachelor of Arts - Sociology Major

Western Kentucky University, Bowling Green, Kentucky  
Master of Public Service - Regional Planning

Western Kentucky University, Bowling Green, Kentucky  
Master of Public Service - Public Administration

### Military

**Service:** United States Army 1968 - 1977  
Airfield Operations Specialist

### Work

**Experience:** Barren River Area Development District, Bowling Green, Kentucky  
Regional Health Care Administration Planner 1977 - 1979

Anderson Engineering, Smiths Grove, Kentucky  
Community Development Program Manager 1979 - 1981

Henderson Community Development Organization, Henderson, Kentucky  
Executive Director 1981 - 1984

City of Eureka, Eureka, California  
Redevelopment and Economic Development Director 1984 - 1990

County of Humboldt, Eureka, California  
Redevelopment Administration 1990 - 1991

Town of Paradise, Paradise, California  
Assistant Town Manager 1991 - 2011 (2009 - 2011 Part time)

Butte College, Oroville, California  
Associate Faculty - Political Science 1994 - 2016

3CORE, Chico, California  
Consultant 2019 - Present

**Community**

**Experience:** Co-founder Paradise Community Foundation  
Boys and Girls Club Board of Directors  
Paradise Chocolate Fest Board of Directors  
Youth for Change Board of Directors  
Gold Nugget Museum Board of Director  
St. Nicholas Episcopal Church Food Pantry (distribution point for the Green Bag Program)

## Responses to Questions:

1. What motivates you to want to serve on our Board? What interests you the most about our District and do you have any personal connection to the organization?

The District, just like so many others on the Ridge, is working diligently to recover from the devastation caused by the Camp Fire. My home was not destroyed by the fire, but , nonetheless, I deal with it's impacts daily. My first motivation is to work with visionary organizations on projects and programs that will assist in the recovery of the community that has been my home since 1991. I am also motivated by that old school notion of public service. A long time friend and colleague asked me to consider applying for the Board vacancy. I believe that I can be of service, and as such, I am submitting my application.

What interests me the most about the District is what I understand to be an imaginative and enterprising approach to recovering from the fire, and perhaps more importantly, positioning the District to be a trend setting and integral part of the new post disaster community.

As a Town of Paradise staff member since 1991, and an active member of the Ridge community, I have had the pleasure of working with several PRPD staff members on a variety of projects and programs. I have known and worked with past and present Board members.

2. What qualities make for a great Board member? What do you see as the relationship between you and Board members, and staff?

During my tenure with the town, I worked closely with Council members. Qualities that I appreciated were respect for other members of the Council and staff, a willingness to consider all aspects of a situation and the range of solutions related to that situation, represent the views of the community, a commitment to do your homework, and, perhaps most importantly, the desire, ability, and courage to be a visionary.

I believe that the relationship between Board members should be built on mutual respect, a spirit of cooperation, and a commitment to doing what is best for the District and community. The relationship with staff should be much the same. I would add that I believe staff should be encouraged and supported by the Board. While the Board sets policy and staff implements those policies, I would hope that staff is comfortable in bringing a wide range of options to the Board and that the Board would provide a safe place to do so.

3. What role would you play on the Board? Please note skills, connections, resources, expertise, and prior Board leadership experience that you offer and are willing to use on behalf of the organization. What areas will you need to learn the most?

Much of my professional experience was in the field of economic development. Quite often when working with developers and businesses the role becomes one of convener and negotiator. The goal is to get to "YES". Although not a direct comparison, I would like to continue in a role that brings parties together to accomplish the goals of the district and the community.

I have lived in the community since 1991, and during that time I believe that I have been blessed with numerous professional and personal relationships with the business community, several community based organizations, and the community at large. I would continue to build on those relationships and in doing so, hopefully, benefit the District.

My prior Board experience is noted elsewhere in the application. I would add that I am currently on the Board of Directors of the Gold Nugget Museum.

I believe that the area I would need to learn the most would be the Districts budget. Hopefully, my experience with the town's budget will shorten that learning curve.

4. What is your understanding of upcoming challenges and opportunities facing the District?

In short, the challenges are rebuilding and constructing new facilities and programs impacted by the Camp Fire. Navigating the insurance and claims process, adjusting to a decline in revenue, and reprogramming to serve the new Ridge population presents a Herculean challenge for any organization. Those same challenges, if realistically addressed, can present an array of opportunities for both the District and the community.

5. What factors might limit your ability to serve?

I am not exactly sure what you are looking for with this question. If appointed, I believe that I have the time and resources to meet my Board responsibilities.

Word Count: 751

To Whom It May Concern:

I was recently approached by a member of our community who I, along with many others on the ridge have much respect for. He informed me that there was a vacant Parks and Rec board position and that he would support me if I considered interviewing.

I did a lot of reflecting on what Paradise Parks and Rec has meant and means to myself and to our community. I went to preschool at the Rec Center but when I think of Paradise Parks and Rec I think of Mike Trinkia and his white Toyota pickup with the stripes on the side. At the duck pond, Mike taught us how to shoot bows and after, my friends and I would catch frogs and cover ourselves with clay and get chased by geese. I learned how to swim at the Parks and Rec pool and my friends and I spent our summers swimming there. Now, years later, I have a second-grade daughter, who along with her friends is looking forward to swimming at the same pool this summer. Kids fishing day at Paradise Lake was a great time for her and many of her friends from schools all over the ridge. It was refreshing to see multiple organizations coming back together to make that successful.

After a few nights sleep, and much thought I decided that my aspiration and drive to always improve our community would allow me to prioritize the time and commitment required to be a board member. I feel I have the personal skills and leadership ability required to join your board and would be an asset to the organization that has done a great job building and rebuilding parks while keeping programs going for its constituents through unprecedented times.

As a resident of Magalia, I would be honored to be in a position where I can represent the residents of Paradise and Magalia as we continue to re-build a thriving community.

Thank you for this opportunity,

Sky Borie

## **Sky Borie**

Magalia, CA 95954

### **Education and Experiences:**

#### ***Paradise High School, 1999***

I played High school Baseball all four years and wrestled one year. I received a vocational letter in Photography. My over-all gpa was around 3.0

#### ***Butte College, 1999-00, 2004-05, 2014***

I attended Butte after high school. I completed their EMT course with an A and became a state of CA accredited EMT. I also took fire science, environmental management, and general educations including math and English classes. I am one class short of having an associate degree in fire science.

#### ***AST Paramedic Program, 2006***

I attended and completed the paramedic program which include, didactic, clinical, and field internship work. After completion I became a nationally accredited paramedic.

#### ***Cal Fire, 2004-16***

I started as a volunteer firefighter in Magalia and was then hired seasonal firefighter in Butte County in 2005. After I became a paramedic I worked as a firefighter paramedic and engineer paramedic in Riverside County the majority of my career. We were very busy and the experiences, problem-solving abilities, communication, and leadership skills I learned are priceless. I promoted to limited term captain in 2015 before deciding that the amount of time I had to spend away from home and family outweighed the benefits and resigned in 2016.

#### ***Enloe Medical Center, 2005-07***

I worked as a Per Diem EMT on their ambulance between fire seasons.

#### ***General Construction, 1998-current***

I worked for various contractors and became proficient in most building construction trades. I partnered with a friend and did private clean-up work after the fire for friends and family and I am now involved in the rebuilding of Paradise.

#### ***Paradise Little League Board, 2020-current***

I have coached my daughter's baseball team for the last four seasons and am currently the Umpire in Chief on the Board.

- 1) *What motivates you to want to serve on our Board? What interests you the most about our District and do you have any personal connection to the organization?*

I am motivated by my desire to see people happy and do well. I believe in providing the best environment for life long success for our youth, this is done by providing opportunity through youth sports and recreation and providing places they can grow together with their peers, parents and mentors. The parks and activates that Parks and Recreation departments provide for their communities helps to maintain and improve the physical and mental health and well-being of the community as a whole. The condition of a community is reflective of its Parks and Rec Department. Serving on the board is an opportunity for me to help our community live happy and healthy lives while making strong connections through Parks and Rec activities.

We live in the mountains, we have lakes, rivers, parks, fields, and open land. PRPD has over 140 sq. miles within its district and that complexity and diversity along with the collaborations of the many groups and organizations within our district and PRPD is of great interest to me.

My personal connection to the organization is the frequent use of its facilities. Whether its trails, parks or playgrounds, it is not until you sit and reflect on the everyday role that PRPD plays in our lives that we realize the importance of its continued success.

- 2) *What qualities make for a great Board member? What do you see as the relationship between you and Board members, and staff?*

A great board member must communicate effectively, really listen to people, and communicate with stake holders who may be of a different opinion then their own. I strive to see things through other people's eyes and really understand their thoughts and opinions along with the reasons behind them. I believe that the truth is the most important thing and I see my relationship with the board and its staff as an honest, respectful, and professional relationship. We will have decisions to make that not everyone on the board, PRPD staff, or most importantly the community we represent agree with, and we should all be confidant that no decisions are made because of personal biases.

- 3) *What role would you play on the Board? Please note skills, connections, resources, experiences that you offer and are willing to use on behalf of the organization. What areas will you need to learn the most?*

As indivial Board members we are all single votes, however we are a board with different views and opinions and if we can talk, debate and consider, then we will reach the right decision. I look at any issue with objective and open eyes. I know that there will be projects and ideas that we all wish we could see happen but due to factors such as our budget and resources, we will be forced to vote for a less than favorable outcome.

I worked as firefighter and paramedic for over 12 years, I started as a volunteer firefighter in Magalia. I was then hired by Cal Fire as a seasonal firefighter worked hard and promoted up the ranks to captain before leaving that job to spend more time at home to raise my daughter. I developed relationships with people from all walks of life as both a co-worker and also as a supervisor. I grew into a leader and the skills I learned are priceless in everyday life, whether it's working with people or turning chaos back into order. I was able to have great conversations with elderly people while transporting them to the hospital and in some cases while they were having the worst day of their life. They taught me the value of listening and the importance of communication and respect for people.

I am a current member of the Paradise Little League board and believe in community organizations collaborating for the overall betterment of the community. A person's health is poor when all the organs don't work well together and I view a community the same.

I have lived in Paradise for most of my life, it still seems like you cannot go anywhere without knowing someone. I have a daughter in second grade and as anyone with kids knows there is a community with in a community when you have young active kids. I was involved in the clean-up of Paradise on the private side and am now active in the rebuilding of Paradise. I have friends and acquaintances all over town and will seek out thoughts and opinions throughout our community and represent them to the best of my ability as a board member.

Learning the structure and dynamics of meetings as a Little League board member has been of value, I will need to study and learn the laws such as the Brown Act and other rules that dictate our actions as Board members. These are in place for a reason and are not to be taken lightly. I will study these laws and insure I am professional at all times and will act in accordance with our responsibilities.

4) *What is your understanding of upcoming challenges and opportunities facing District?*

I have not studied the challenges, but would assume that a lot of them will be related to budget. If that is the case, then we need to provide solutions that fit with our budget and also carry out our mission. Other challenges I can imagine are the ability to fill staff positions, the current cost of building materials and the availability of sub-contractors.

PRPD's opportunities are abundant. We have parks that look amazing right now, a lake that has a range of possibilities with many stake holders of a variety of opinions that deserve discussion and debate. We have a growing youth population with the need for year-round activities to help guide them in the right direction. We have adults who have had their entire social network of people move away and they now need places they can meet people and activities that will help keep them active. We also have people of all ages moving back and our parks are a desirable feature to our community.

5) *What factors might limit your ability to serve?*

The biggest challenge I see for myself as a Board member is time needed to work on duties. I can lessen the impact of an added responsibility by keeping a good calendar and planning my obligations well in advance. I can honestly say I do not see or predict any major issues that would limit my ability to serve as a respected Board member.

**TERRY L. ROGERS**

**PARADISE, CA 95969**

May 22, 2021

Paradise Recreation & Park District  
6626 Skyway  
Paradise, CA 95969

RE: Board of Director Position

Hello:

I am a member of Zones 3 and 4 Facebook and noticed you were in need of a member to fill a position on your Board of Directors. I have lived here in Paradise for 20 years and was very involved with PPRD during the early years with the development of our daughter. My wife sat on the Board of the Paradise Piranha Swim Team for 7 years and I was deeply involved with girls basketball up until 2011.

I am a hard-working, motivated, and deadline-driven professional with excellent organizational skills. I currently hold a license as a Registered Professional Forester and certified master log scaler. My company, Paradise Ridge Forestry has been in business for 20 years and I have never had to advertise (all my work is from "word of mouth". I am a graduate of College of the Redwoods in Eureka, California and lived in Grass Valley, Californian for 14 years before moving to Paradise. Before that I spent 9 years in Quincy, California

I would appreciate an opportunity to present my resume and cover letter or meet for an informational interview. I am available for weekday interviews, both telephonically and in-person. Thank you for taking the time to consider my sincere interest in being a member of the Paradise Parks and Recreation Board.

Kind regards,

A handwritten signature in black ink, appearing to read "Terry L. Rogers", with a long horizontal flourish extending to the right.

---

Terry L. Rogers  
Paradise, CA 95969

**TERRY LEON ROGERS**  
**REGISTERED PROFESSIONAL FORESTER**  
**CALIFORNIA LICENSE #2537**

[REDACTED] Paradise, CA 95969  
 [REDACTED]  
 [REDACTED]  
 [REDACTED]  
 [REDACTED]

STATE OF CALIFORNIA  
 Board of Forestry and Fire Protection

THIS IS TO CERTIFY THAT

TERRY ROGERS, No. 002537

is a Registered Professional Forester who has qualified for registration under  
 Article 3 of Chapter 2.6 of Division 1 of the Public Resources  
 Code of the State of California.  
 EXPIRATION DATE 03/30/2021

*Terry Rogers*  
 Executive Officer, Forester Registration

---

**LICENSES AND CERTIFICATIONS:**

**Registered Professional Forester (RPF) - License #2537**

**Certified Master Log Scaler by the Northern California Log Scaling & Grading Bureau**

---

**PERTINENT WORK EXPERIENCE:**

**Mountain G Engineering [MGE] (12/19 to ongoing)**

1180 Iron Point Road  
 Folsom, CA 95630

**POSITION: Registered Professional Forester, License 2537**

**Duties, Accomplishments and Related Skills:**

As the "Lead" RPF on the Camp Fire Tree Removal Project (CalRecycle DRR 19067) I was considered a Subject Matter Expert who aided in supervising Branch RPF's and training Arborists, Biologists and Archaeologists. My role also included preparing the Public Agency Utility ROW Exemption and Emergency Timber Operations documents for each operational area. As the Lead RPF I also oversaw, monitored, and made final hazard tree determinations (with support of Branch RPF's and Arborists) regarding any questions about the Hazard Tree determinations and/or the need to use cranes for hazard tree removal.

The Lead Forester assigned Branch Foresters various duties on a hourly, daily or weekly basis which provides support for the complexity of the project. The Lead RPF used past experience and expertise in helping to locate property corners and verify approximate property lines, works with State and Federal Departments (CalRecycle, CalOES, Cal Fire, California Department of Fish and Wildlife, California Water Board, US Fish and Wildlife, Army Corp of Engineers), Consultant (Arcadis) and Contractor (Ceres and SOPB) in matters regarding California Forest Practice Rules and Environmental Protection Plan (best management practices) interpretations. At times, as the Lead RPF, I was deployed as Liaison with Landowners in tree evaluation.

Am now responsible for many other tasks with emphasis on arborist training, PG&E support and general supervision.

**Paradise Ridge Forestry (self employed - ongoing)**

76 River Wood Loop  
 Chico, CA 95926

**POSITION: Registered Professional Forester, License 2537**

**Duties, Accomplishments and Related Skills:**

Formerly of 1715 Grand Court, Paradise, California (95969): As a Registered Professional Forester (RPF) since January of 1996 it is my duty to prepare the necessary documents to meet each private landowner's needs regarding the removal of trees from his/her property. This can include preparation of a timber harvest plan, nonIndustrial timber management plan, fuel reduction plan, or any of the many exemptions allowed by the state of California. I also do appraisals of timber property for various clients. My field work generally includes a timber cruise (complexity of cruise is based on landowner's budget), and usually will include timber marking, environmental protection, archeology, silviculture selection, mapping, and

botanical and wildlife surveys. I also act as a liaison between clients and State & Federal Agency representatives and Licensed Timber Operators. I also have been involved with land exchanges between private and Federal agencies. I have been employed to do timber appraisals and cruises for many clients for a wide variety of reasons. In recent years I have completed 25 timber harvest plans but also have been very involved with public utility right-of-ways, mitigated negative declaration documents, drought mortality layout and documentation and hazard fuel reduction work with special emphasis on mechanical fuel removal methods include thinning, mowing, and pruning of lower tree branches. Being from Paradise it has been only fitting to have completed over 200 post fire recovery exemptions and emergencies for people from my community.

### **Mountain F Enterprises**

4800 Baker Mt. Road  
Lotus, CA 95651 United States

#### **POSITION: Utility Arborist**

#### **Duties, Accomplishments and Related Skills:**

As a Utility Arborist (Forester) from April of 2012 to September of 2013 I performed identification, inspection, and evaluation of trees and brush along utility lines. I inspected utility right-of-ways and access to Right-of-Way (ROW) areas for compliance with client clearance standards. I identified needed tree and brush control work and planned, directed, and coordinated the activities to the assigned line-clearance crews. I documented all work using a Trimble hand-held computer and was responsible for the maintenance of the database for all identified work. I notified property owners of pending work on their property. I audited work completed by contractors. I supervised crews removing trees and vegetation from the right-of-way areas of water conveyance canals and overland area associated tunnels. I wrote a major timber harvest plan while employed with Mountain Enterprises for Sacramento Municipal Utilities District (SMUD) utilizing a special (1st time) fuels hazard reduction silviculture prescription. The project, located in the Camino, Ca area is now a centerpiece for "show me" trips regarding fuel hazard reduction. The plan included a timber cruise and development of an extensive fire plan.

In the spring of 2019 I was hired as an RPF subcontractor to help out Mountain F Enterprises in Butte County but, due to a contract Mason, Bruce and Girard holds with PGE in the North Valley to provide RPF related forestry services, there just was not much work to do. Instead I, as a consulting forester, concentrated the summer of 2019 on post fire exemptions for private landowners in my hometown (Paradise) - over 200 exemptions and emergencies.

### **Chestnut Ridge Forestry**

P.O. Box 602  
Cloudcroft, NM 88317 United States

#### **POSITION: Forester**

#### **Duties, Accomplishments and Related Skills:**

February to May 2009

Location: Central Idaho (including Frank Church Wilderness Area)

Working as a one-man crew and utilizing NSDI Standards I did a form of common stand exam utilizing a single macroplot (2 chains - 132') to calibrate vegetation attributes field data to current and/or future aerial photography. The fieldwork required recording all data using a Dell-Axiom PDR. We recorded geographic coordinates (noted to relocate the plot) and basic information such as data measured, observer, plot type and size. Ancillary data such as physical attributes (slope, elevation, aspect, hydrology, parent material, soils) of the plot location was also gathered to guide interpretation of vegetation. Species composition of the plot was based on vertical structure and physiognomy of the plot including name and dated taxonomic reference of all recorded taxa. Middle and lower tiers of the NVC hierarchy (levels 4-8) required identification of genera, species, and finer taxa (subspecies, varieties). We also measured canopy cover.

May to December 2009

Location: West-central Colorado and Northern Arizona

FIA plots were done with a two man crew recording all pertinent data with a Dell-Axiom PDR. We were responsible for measurement and re-measurement of plots consisting of a cluster of four sample points, with three of the points located 120' from the central point at 0, 120, and 240 degrees azimuth. Each point in the cluster was surrounded by a 24-foot fixed-radius subplot where trees 5 inches (DBH) and larger were measured. The four subplots totaled almost 1/6 acre. Each subplot contained a 6.8-foot fixed-radius microplot where saplings (from 1" to 4.9" DBH) and seedlings were measured. All four microplots totaled approximately 1/75 acre. The microplots were offset from subplot centers (12.0 feet at an azimuth of 90 degrees) to minimize seedling trampling. Each subplot was surrounded by a 58.9' fixed-radius macroplot, which was used to include large trees (> 40.0 inches DBH) and mortality.

**Mountain Forestry**

P.O. Box 1899

Grass Valley, CA 95945 United States

**POSITION: Forester****Duties, Accomplishments and Related Skills:**

Before obtaining my license to practice Forestry I worked as a forester for Mountain (May of 1991 until the beginning of 1996). I primarily aided in the timber harvest process. Duties ranged from timber cruising and appraising timber, timber marking, and general preparation to provide adequate protection for wildlife, water, soils, geology, and archeology, and to provide for optimum fire safety. I quickly developed my computer skills, working with Microsoft Word, Word Perfect and Excel. I wrote or aided in writing many harvesting documents during each year. I learned to use GIS and GPS as part of THP preparation. I had the opportunity to work with several State and Federal agencies in the course of operations. I was instrumental in the layout of an extensive timber cruise involving a land exchange with the U.S. Forest Service and Richard Brown & Walt Saunders in the Feather Falls area near Oroville, CA.

---

**EDUCATION:****Southern Illinois University**

Carbondale, Illinois

Undergraduate studies in Forestry

**College of the Redwoods**

Eureka, CA

Associate's Degree in Forestry

1. What motivates you to want to serve on our Board? What interests you the most about our District and do you have any personal connection to the organization?

**2002-2005 I coached girls basketball through PPRD and had a great experience. Of course that helped me to become the Intermediate School's girls basketball coach for the following two years (becoming quite involved with AAU) and then went on to coach 4 years at Paradise High School with Seth Roberts and Terri Ann Brown. I had the pleasure of taking a nucleus of girls from our community (eventually becoming the Paradise Ridge Lynx) and helped them to grow and not only become better basketball players but learn to work as a team. To me "team" is really what it is all about. I have always preached this in all sports I have coached (including boys basketball, Little League for boys and girls, men's hardball baseball, men's basketball and men's and co-ed underhand pitch softball).**

**I coached and played sports from 1992 - 2011. I have always found that "team" interaction is a strength builder in a community. Our community needs the opportunity to gather with other members of the town to participate in team activities. If the teams need a leader I will be there, if they need a participant I will be there, if the team needs a spectator I will be there.**

2. What qualities make for a great Board member? What do you see as the relationship between you and Board members, and staff?

**A great board member is obviously one that listens. But also a great member is one that acts. I have a strong and successful background in forestry and, although that does not make for a great board member, it does indicate that I am passionate about what I do. Passion and commitment are keys to being a successful member of a board which has the community's best interests in mind.**

3. What role would you play on the Board? Please note skills, connections, resources, expertise, and prior Board leadership experiences that you offer and are willing to use on behalf of the organization. What areas will you need to learn the most?

**At this point I would be a Board member who is rebuilding his home in Paradise and is interested in helping to shape the future of ridge related activities to involve our community and other neighboring communities. I would like to be part of something that sets the example of how do we get out of this stigma associated with the Camp Fire and Covid 19. As we all rebuild perhaps we need to offer opportunities to move away from the negative and establish positive connections together through something more than Facebook. I do not possess prior board experience but have certainly led many a group at achieving a common goal (sports, timber harvest plan, timber cruise, arborist inventory, sawmill log yard co-ordination, etc). Of course, the areas I will need to learn the most is "how do you give all this to the community and still 'stay on budget'".**

4. What is your understanding of upcoming challenges and opportunities facing the District?

**At this point I do not fully grasp the upcoming challenges we are facing as a district but that has never stopped me from working on getting to the bottom of such an endeavor. I will say this: "There are no great people in this world, only great challenges which ordinary people rise to meet." - William Frederick Halsey, Jr.**

5. What factors might limit your ability to serve?

**At this point I am going to be doing Forestry work in El Dorado County and do not know exactly how long I will be there. It may only be a month or so.**
